

DT-Mobil Easy Pick-up 210 L

Precision-fitting tank solution for transporting on a pickup with a closed cover.

With a total height of only 44.4 centimetres the DT-Mobil Easy Pick-up has the perfect dimensions for safe transport on your pickup under a closed cover. It also makes optimum use of the space between the wheel arches of your load area.

Integrated features Simple. Practical. Mobile.

Diesel-Pump Options:

- Self-priming 12V pump, 40L/min
- Centri SP30 submersible 12V pump, 30L/min
- Centri SP30 submersible 12V pump, 30L/min and LiFePO₄ battery

Fits under the cover and between the wheel arches of the most popular pickups

Your advantages:

Transport hidden from view:
Fits under the load area cover and between the wheel arches.

Easy handling:
Forklift pockets and ergonomic handles.

More safety:
Hose, nozzle and accessories safely stowed within tank and secured with lockable lid. No leakage in the event of tank falling over.

Flexibility:
2 different 12V pump options and battery for cable-free use.

Non-slip installation:
Dual ratchet strap guides and load-bed fixing.

Approved for transport:
Trouble-free and legal transport when used under ADR exemption ADR 1.1.3.1 c)
